

Measuring Guide:

If you could please measure the urn and complete the sizes in the interment form for me. The diagram below is a guide to help if you are unsure.

Cost Guide:

A plot may have already been pre-purchased for ashes, if this is the case - the only charges will be for interment, *and/or a plaque or tree if applicable.*

Plot fee: *Either £400 or £825*

If you are also purchasing a plot at this time, the cost is either £400 or £825.

- For burial in the coppice or on the edge of the wildflower area - the cost is £400.
- For a full burial plot that can accept up to 4 sets of ashes - the cost is £825.

Interment fee: *Either £250 or £400*

The interment fee covers the preparation of the ground, the 'tucking-in' of your loved one, administration of all paperwork and the actual service time itself.

- This cost is £250 where you have had an attended cremation service already.

If the person has received a direct cremation, meaning that the main service will be held at Atlantic Rest - the interment fee is higher due to the extra time/staff involvement of this.

- This fee is £400.

Optional extras: *Tree and/or Plaque*

If you would like a plaque - I try to get these in advance so that they can be installed on the day as part of the service. This cost is £65.

If you have chosen a full burial plot meaning that a tree is being planted also - the cost of this is £80.

If you are in any doubt, please get in contact - my number is 01288 381 836.
